

Health Issues in Construction

Who Should Attend . . .

This workshop is a must for anyone concerned about health and safety on the job including:

- Managers concerned about liability and worker's compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with MIOSHA

Why you need this Workshop . . .

- ➤ To reduce disabling injuries and illnesses to employees and to ensure that every worker goes home safe and healthy every day.
- ► To reduce the high direct costs of work-related injuries, which grew to \$42.5 billion nationally in 2000, and indirect costs, which were estimated at an additional \$127 \$212 billion in 2002. (2003 Liberty Mutual Safety Index.)
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces worker's compensation costs, improves employee morale, and increases production and quality.

3

What You'll Learn . . .

This course will help educate and make the construction manager/worker aware of some of the typical health hazards and their potential health effects that are associated with the construction trade industry. Topics of discussion will include information about asbestos, lead, cadmium, silica, carbon monoxide, asphalt hazards, isocyanines, confined spaces, noise exposure and respirator use. Students will be able to recognize potential problems with exposures and how to protect themselves with the use of engineering controls and personal protective equipment.

Agenda

Asbestos

Lead

Cadmium

Silica

Carbon Monoxide

Asphalt Hazards

Confined Spaces

Noise

Respirators

Facilitator

Dave Humenick joined the MIOSHA CET Division in October of 2003. Prior to coming to CET he served as an Industrial Hygienist in the MIOSHA Enforcement program for 11 years where he investigated complaints and accidents in all types of places of employment.

Before his employment with the State of Michigan Dave was a corporate Industrial Hygienist for 7 years with a prominent fortune 250 company which had over 10,000 employees throughout the US and Canada. His responsibilities included training and compliance with MIOSHA and Federal Health and Safety Standards.

Dave holds a BS degree in Occupational Safety and Health from Ferris State University where he majored in Industrial Hygiene with a minor in Safety.

Dave Humenick
Industrial Hygiene Consultant,
MIOSHA, CET Division
